

Let Your Electricity Bill Save You Money

Your Grenlec bill shows how much energy you use every month. To save money, start by understanding your bill. [Download our brochure.](#)

If your electricity use increases, consider:

- **Changes in the number of people and activities** in your home can increase your use of lights, cooling equipment, appliances, hot water, TVs, and other electronics.
- **Decorative lights** during festive seasons increase your electricity usage.
- **Increased use of cooling equipment**, including air conditioners and fans increase energy usage.
- **Your licensed electrician** may be able to help.

Save energy and money by consistently being energy efficient. [Download our Energy Management brochure.](#)
